Date

**\*\* SHOULD LESS THAN 15 STUDENTS SIGN UP FOR AN OPTION, THAT OPTION MAY BE MERGED WITH A SIMILAR OPTION.**

### **Option A**

All grade 9 students will take 2 modules in the areas listed below. Students will be assigned to each for half of the school year.

#### **Communication & Design 9**

Students will select activities and projects within the following areas:  
Photography, Video, Printing, Basic Design, Problem Solving and Design

**FEE: Approximately 20.00**

#### **Construction & Fabrication 9**

Students will select activities and projects in the following areas:  
Woodworking, Plastics, Ceramics, Metals

**FEE: Approximately 22.00**

#### **Food Studies 9**

The focus of Foods 8 will be nutrition. Students will review safety and sanitation, will practice cooking techniques and will learn about nutritional needs for healthy living.

**FEE: Approximately 45.00**

#### **Invention Convention 9**

Students will learn about inventing and work through steps to create and present their own invention.

**FEE: Approximately 10.00**

#### **Sew What? 9**

Sewing is a life skill that is a great asset for any individual in the real world. This course will serve as an introduction to sewing or if you already have sewing skills, you will build on the skills you already possess. You will learn how to lay out and cut simple patterns and how to use a sewing machine. You will also learn basic competencies necessary in sewing. A number of introductory, intermediate and advanced projects will be identified for you to choose from or you will present a project of your own to be complete in class.

**FEE: Approximately 10.00**

#### **Tech 1.0**

Enhance everyday computing skills to become more proficient and confident in using computer programs including Excel, Word, Publisher and Powerpoint. Students will also develop digital citizenship skills such as responsible use of media equipment and software applications to reduce the sharing of inappropriate content or images and occurrences of cyberbullying. Students will examine how on-line behaviors impact their own and others' wellness.

## **OPTION B**

**All grade 9 students will take 4 options from the list below. \*\* BAND, FRENCH, LEADERSHIP AND DRAMA are full year courses and will count as 2 options.**

### **Advanced Construction / H.O.L.O. (Hands on Learning Opportunities) 9**

You dream it, you build it. This is a self-directed course where students choose the mediums they want to work with and choose projects they would like to build. Teachers will assist in the selection of mediums and projects, as well as the logistics of the build. The idea is to focus on using the tools and machines available in the Construction Lab and the Communications Technologies Lab. Possible mediums to work with are wood construction, ceramics, 3D Printing, stencils, computer design.

**FEE: Approximately \$60.00**

### **Art 9**

Students will develop the basic principles and elements of art to create two and three dimensional works of art. The students will create linear, geometrical, abstract, and realistic art pieces. Students will explore the vocabulary needed to discuss and critique works of art. Portfolios will be used to assess growth. Items in the portfolio will be collaboratively selected by student and teacher.

**FEE: Approximately \$13.00**

### **Band 9**

Students will have the opportunity to expand their musical knowledge and improve upon playing technique through a variety of performance opportunities including many concerts and a 3 day overnight trip to Banff. The trip to Banff can be offset through a student fundraising activity. Students will continue to develop their ability to read, understand, interpret and appreciate music.

The prerequisite to Band 8 is a mark of 50% or higher in Band 7. If a student did not complete Band 7 and would like to register in Band 8, they are still able to enroll upon meeting the following criteria:

- Taking private lessons on a band instrument
- Have successfully complete an audition with the band teacher.

**FEE: Approximately \$65.00 Plus \$65.00 instrument rental if required. (The estimated cost for the clinic and retreat will be \$350 + Cost will depend on location and structure of the retreat)**

### **Bring your own Guitar (B.Y.O.G.)**

This option will be for students at the beginner or intermediate levels. Each student will be required to bring a guitar to class. We will cover basic chord progressions along with strumming and finger picking techniques. The class should be informational and fun.

### **Cosmetology Studies/Personal Image Design 9**

Students will develop their own personal style and image through discovering ideas in makeup, hair, fashion trends, hygiene and body image.

**FEE: Approximately \$40.00**

### **Commercial Foods 9**

Students will develop hygienic, safe and efficient food preparation skills as they prepare meals for Clover Bar students and staff, to be sold at Mini Mart.

**FEE: Approximately \$45.00**

### **Drama 9**

This course involves teaching students to observe, communicate, concentrate, reflect and use their imagination. There will be some opportunities for drama students to get involved in various acting activities throughout the school year.

### **Experiencing Japanese Culture and Language 9**

Students have the exciting opportunity to expand and explore Japanese culture, media, anime, history and language.

### **Fitness and Wellness 9**

Get ready to sweat! Students will develop and enhance personal fitness and wellness goals. Students will learn different strategies and use of equipment such as TRX, calisthenics, crossfit, spinning and interval training.

**FEE: Approximately 50.00**

### **French as a Second Language 9**

Students with a special interest and/or aptitude in French should consider continuing their studies of this language. Also, students planning on taking French in high school are encouraged to enroll in this course. We recommend a mark of 65% or better in French 8 for a greater chance of success. If less than 15 students register for French, students will work at the school, online through Alberta Distance Learning. In addition to Alberta Distance Learning Instructor, Clover Bar staff will be available to assist.

### **Improv 9**

Students will have the opportunity to learn and develop the skills required to participate in an improvised drama performance. Students will begin the course by working on the characteristics and techniques used on stage. The progression will continue towards building scenes through character, plot and setting. Once students have learned the foundational aspects of improv, they will be implementing their abilities in various forms of improve themed activities, games and assignments. There will also be opportunities for the possibility of student led improve tournaments, improv workshops, field trips to live performances, competition versus other schools. With improve having no scripts, each class promises to be fun, exciting and engaging.

### **Independent Study**

Do you require a little extra time to study for an upcoming exam, or review your notes from class, alleviating a heavy homework load? This option is the perfect solution for your time management.

### **Leadership 9**

This class is designed specifically for grade 9 students who are prepared to investigate and develop their leadership potential through participation and planning of activities and through experiential learning and service projects within the context of school and community. There may be 1 or 2 extended field trips during the year. **While there is no fee for this course, there will be an approximate fee of \$150 for each retreat they attend. There is a fall leadership team building retreat and a spring wrap up retreat. Students may choose to participate in a fundraising activity to offset the retreat.**

### **Outdoor Education 9 (Ice Fishing and Archery)**

This course is a fusion of outdoor activities and survival skills. The survival skills units include: campcraft, orienteering, map making, trapping, and environmental issues. Students will also participate in a variety of outdoor activities such as: rock climbing, hiking, mountain biking, cross-country skiing, geo caching and outdoor photography.

**FEE: Approximately \$65.00 (the extended field trip to Jasper National Park will be approximately \$150)**

There will be an additional fee (TBD) for a year end camping trip to the mountains.

### **PLACE Support Assistant 9**

3 fortunate Grade 9 students will be selected to provide assistance with students and activities in the PLACE classroom.

### **Recreational Fitness 9**

This course is designed to give students a broad base for continuing participation in sport throughout their life. Activities may include: tennis, canoeing, archery, curling, skating, distance running, in-line skating, racquetball, squash, cross country skiing, bowling, golf, weight training, triathlon and swimming. Some field trips will be taken, as required for the activity.

### **Robotics/Table Top 9**

Students will work with a computer and mBot robot to get a hands-on experience with graphical computer programming, electronics, and robotics. Students will assign functions and tasks to input and output sensors on the robot and discover practical applications of Science, Technology and Mathematics (**STEM**) curriculum outcomes. Basic projects include programming the robot to collect objects, measuring distance, perimeter, and area, light intensity, color mixing and sequencing, controlling the robot via the internet, robot interaction with on-line information sources, and any other project you may imagine. Students will also play board games to discover what makes a game interesting and engaging. By the end of the course, students will construct their own board game and create a multimedia marketing plan to become the next great Canadian game inventor.

### **Writer's Workshop 9**

Writer's Workshop is designed to strengthen the linguistic skills acquired throughout the primary and middle school years. The intended outcomes are to increase students' confidence in their own thinking abilities and fluency in a variety of text forms and styles. Creative Writing aims to provide students interested in the creation of text, an opportunity to explore and develop their ideas and talents. As they experiment with writing and re-writing, making effective language choices, they learn to provide and be receptive to feedback from their peers and teacher. The course aims to generate students' confident use of varied dictation, syntax and above all, *creativity*.
