Re: Grade 8 Science Field Trip

Class 83, 84 & 85
Form and Payment Due: Monday February 5th

Dear Parents;

A trip to the Reynolds-Alberta Museum in Wetaskiwin, Alberta has been booked for all grade 8 Clover Bar students. Classes 81 and 82 will be going on Tuesday, February 13rd and Classes 83, 84 and 85 will be going on Thursday, February 15th.

Students will leave Clover Bar Jr. High at approximately 8:45 a.m., returning by 3:10 p.m., in time for regular bussing. The trip will include an introduction to the museum, a multi-image show, two hands-on activities and a tour of the Aviation Hangar. This trip supports the concepts being studied in Unit D-Mechanical Systems.

The cost of this field trip is being covered as part of the school's Eight is Great Week. Students may choose to bring a bagged lunch or pre-order from the cafeteria at the museum. A copy of the menu and prices is attached. **Students must return the menu marked with their choice, and money, no later than Monday February 5th to the business office.** Our school order must be into Reynolds-Alberta Museum by that date for the order to be processed in time.

We also would love parents to assist with supervision for each trip to meet the Museum's recommendation of 10 students per supervisor. If any parents are able to assist with the supervision, please note this on the parental consent form on the next page.

If additional information is required, please feel free to contact your child's science teacher by phone at 780-467-2295 or e-mail at: Firstname.Lastname@eips.ca.

Sincerely

Tara Yeo & Kent Timanson
Clover Bar Jr. High Science 8 Teachers

**Please detach and return the attached consent and meal order forms to the school by
Monday, February 5, 2018.**

No Late Forms Will Be Accepted

Class 83, 84 & 85

Other staff and parent volunteers.						

Destination(s); include the address whenever possible
Reynolds-Alberta Museum, 6426 40 Ave, Wetaskiwin, AB T9A 2G1

Purpose of the trip (include curriculum/program alignment)
This trip fits well with our Unit D Mechanical Systems. Students will illustrate the development of science and technology by describing, comparing and interpreting mechanical devices that have been improved over time. Students will analyze machines by describing the structures and functions of the overall system, the subsystems and the component parts. Investigate and describe the transmission of force and energy between parts of a mechanical system.
